b. Translation Memory Discounts

Included in the cost of translation, Translation Memory creates a glossary of your approved translated terms and expressions that grows with each translation. These glossaries are employed with each new project to ensure more consistent, high quality translations. You are the owner of your translation memory. You can take it with you or get a copy of it at any time. Translatus customer service will provide you with a file format that suits you best. There is no processing fee for taking a copy of the translation memory.

100% Matches (Based on per word matches)	25% Discount
95% - 99% Matches (Based on per word matches)	20% Discount
